

**5. THE ENERGETICS OF THE
EARTH AND THE SPIRITUAL
BEINGS CONNECTED TO IT**

Before we go deeper into concrete examples of the Cabal's Black Magic Symbology that is aimed at affecting us and the Energetics in the World, we need to outline how the Energetics of the World, in the etheric, astral and spiritual realms of the earth are organized and what it consists of.

The Energetics of the earth is a realm of etheric and astral forces, where angelic beings and many nature spirits live and work in their respective realms in Nature.

Within Nature, the Energetics of the Earth also consists of:

1. a network of Ley-Lines and,
2. Cosmic Power Points with Vortexes.

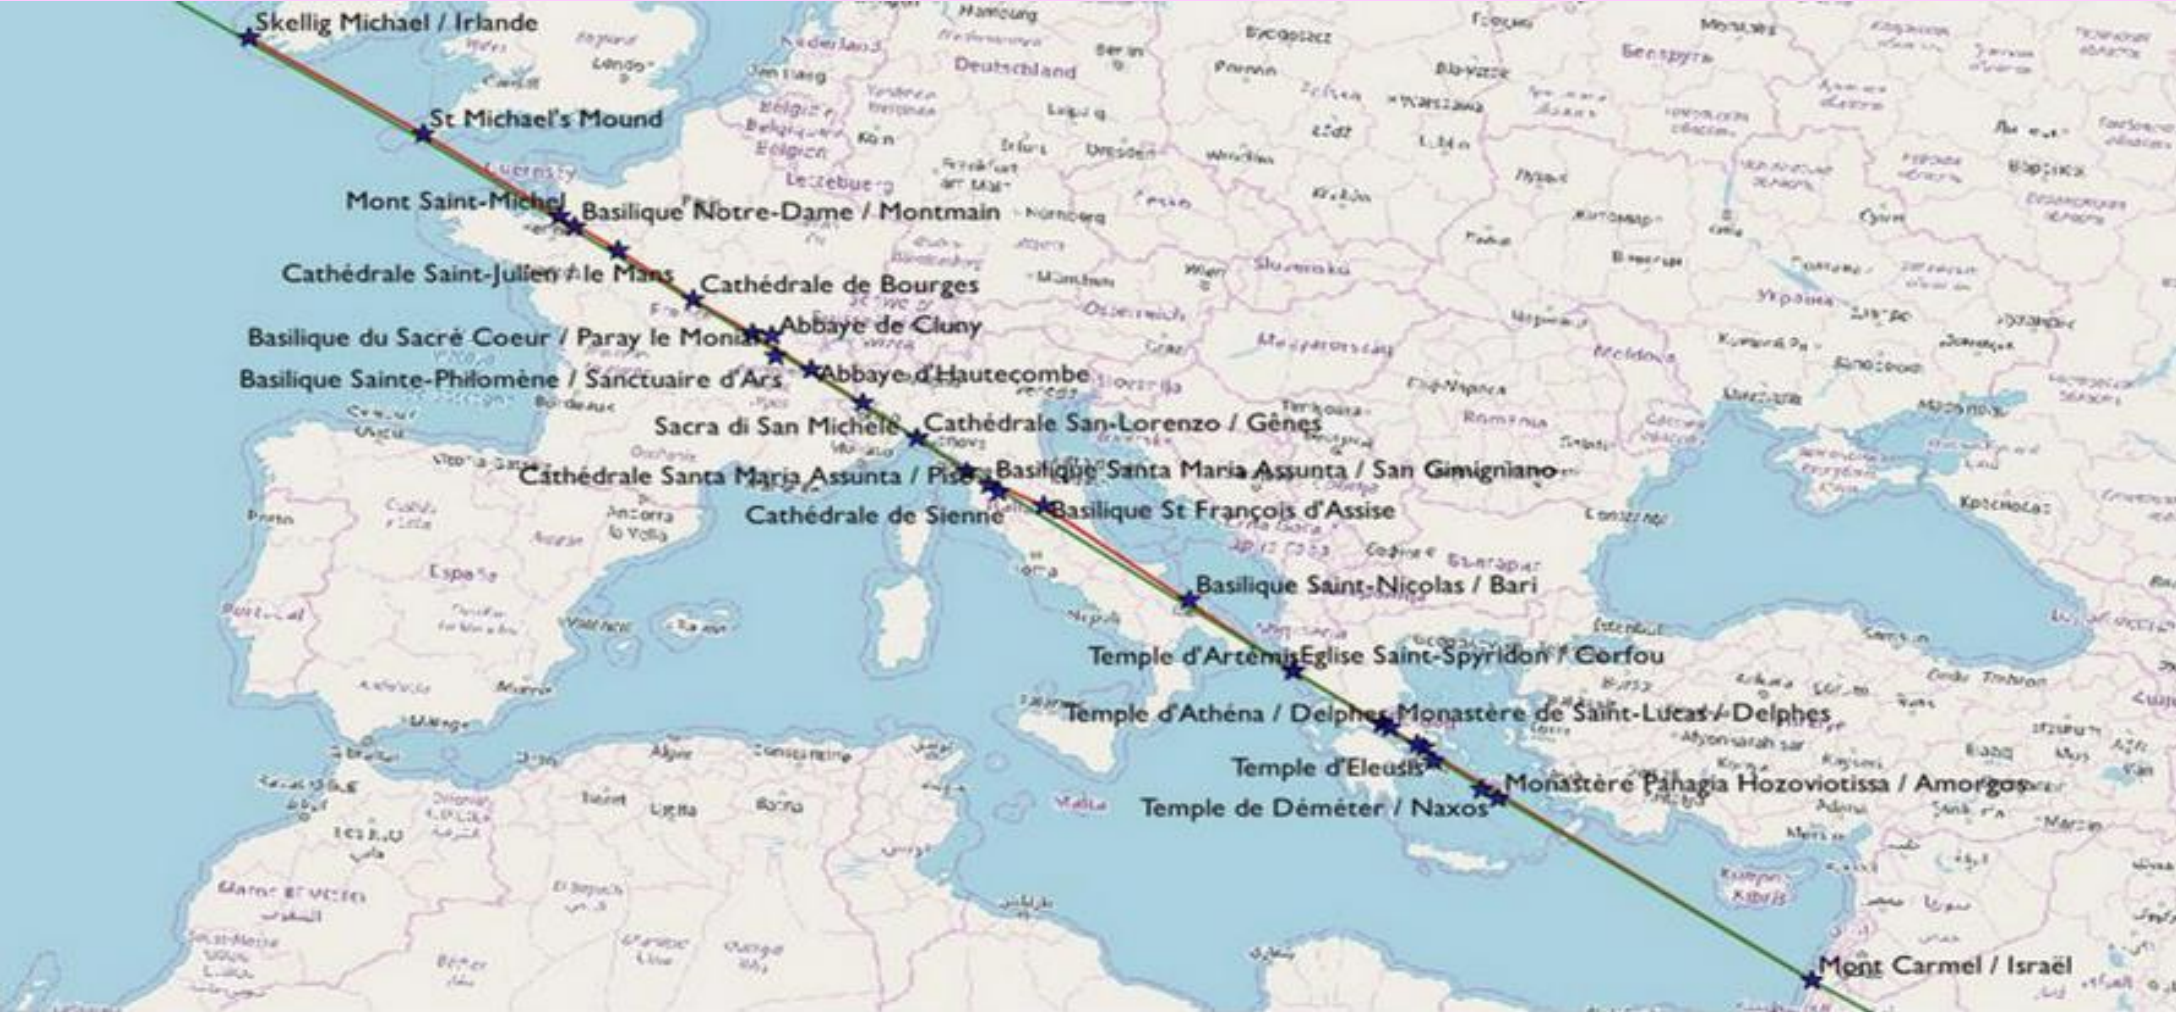

Ley-Lines are like an energetic web all over the earth.

They vary in width and depth.

Ley-lines are like the meridians in our physical body.

There are very special spiritual Ley-Lines, like the ones of St. Michael.

The underlying Spiritual Energetic Infrastructure of the Ley-Lines consists of “**Cosmic Power Points**”.

Those are the Entry and Connection Points for the Cosmic Spiritual Light and Love –the Manna from Heaven– feeding, charging and inspiring the Ley-Lines.

Lightworkers also refer to those as Portals.

There are also stand-alone Cosmic Power Points where the Elves have their point of impact and activity.

The Elves live primarily within the realm of the Air and Light, in the Sky, since that is the physical densification of the Soul of Mother Earth.

The Air and Light are the basis for Consciousness and for making connections throughout the Spiritual World and Space.

So, the Elves live and work in the higher spiritual world of the star constellations, making the connections between those stars and the Earth in a meaningful way.

Cosmic Power Point Fundamentals are:

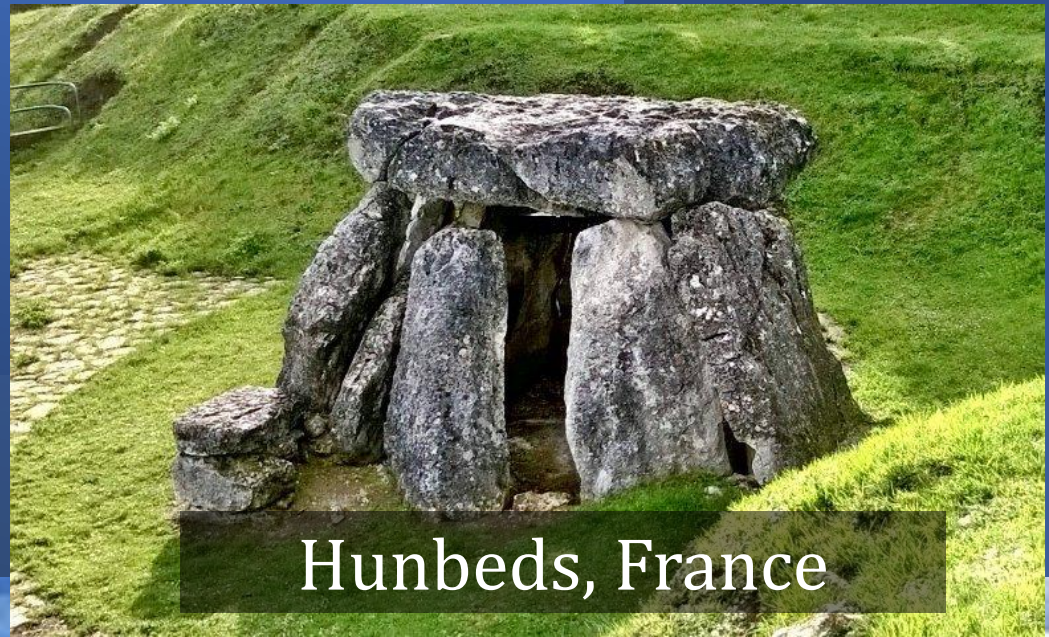

- Situated where Ley-Lines cross each other,
- There are 4 different kinds of Cosmic Power Points:
 1. Stand-alone connected to a specific planet
 2. Stand-alone aligned with a specific star of the 72-star constellations.
 3. Cluster-Design aligned with one of the 72-star constellations
 4. Those with a Basic 3-Fold structure

The stand-alone or Cluster-Design Cosmic Power Points are spots where people have placed e.g., dolmens, hunbeds, burial mounds, pyramids (like Giza or in the Middle America's), or Cathedrals like Chartres (which has become a major lotus flower of the Earth).

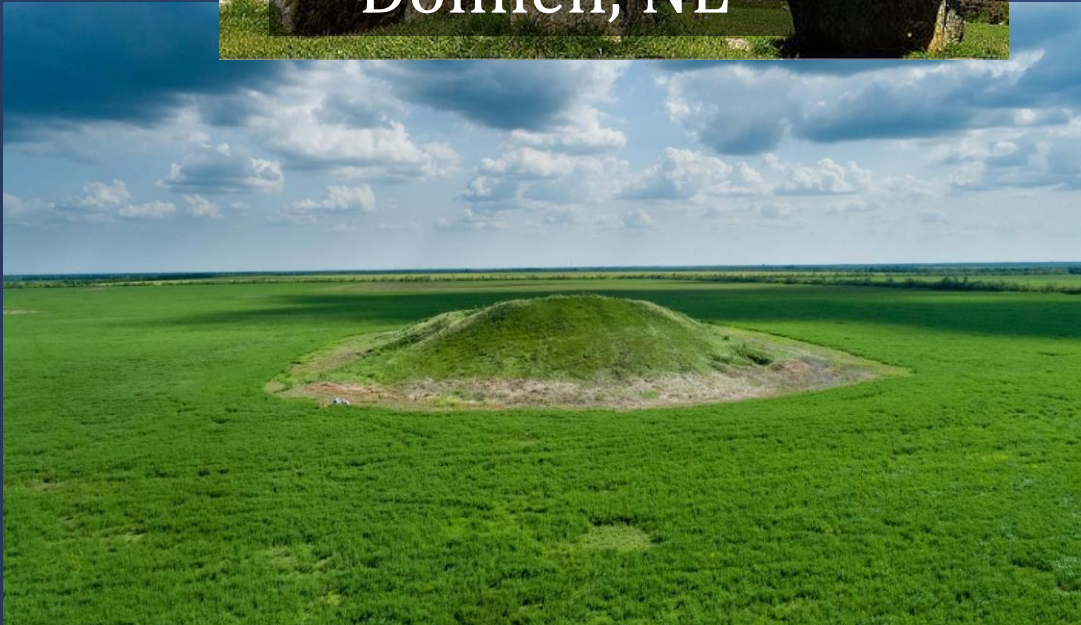

They can also be on specific mountains.

A landscape photograph of Saint Michael's Tor in Glastonbury, Somerset, England. The central focus is a large, rounded green hill with a small, dark, square stone tower (the Tor) on its summit. The hill is surrounded by lush green fields and dense trees. In the foreground, a grassy field contains several cows grazing. The background shows a small village with houses and a church spire. The sky is filled with large, white, fluffy clouds, and the overall lighting is soft, suggesting an overcast day.

Those power points also stand in a connection with the 3-Folded Cosmic Power Points of the Deva's.

In earlier times people already had knowledge of those spots.

Thus, temples and churches are mostly placed on one of the Three Power Points of the Deva.

Those places were also cultivated and used for Initiations.

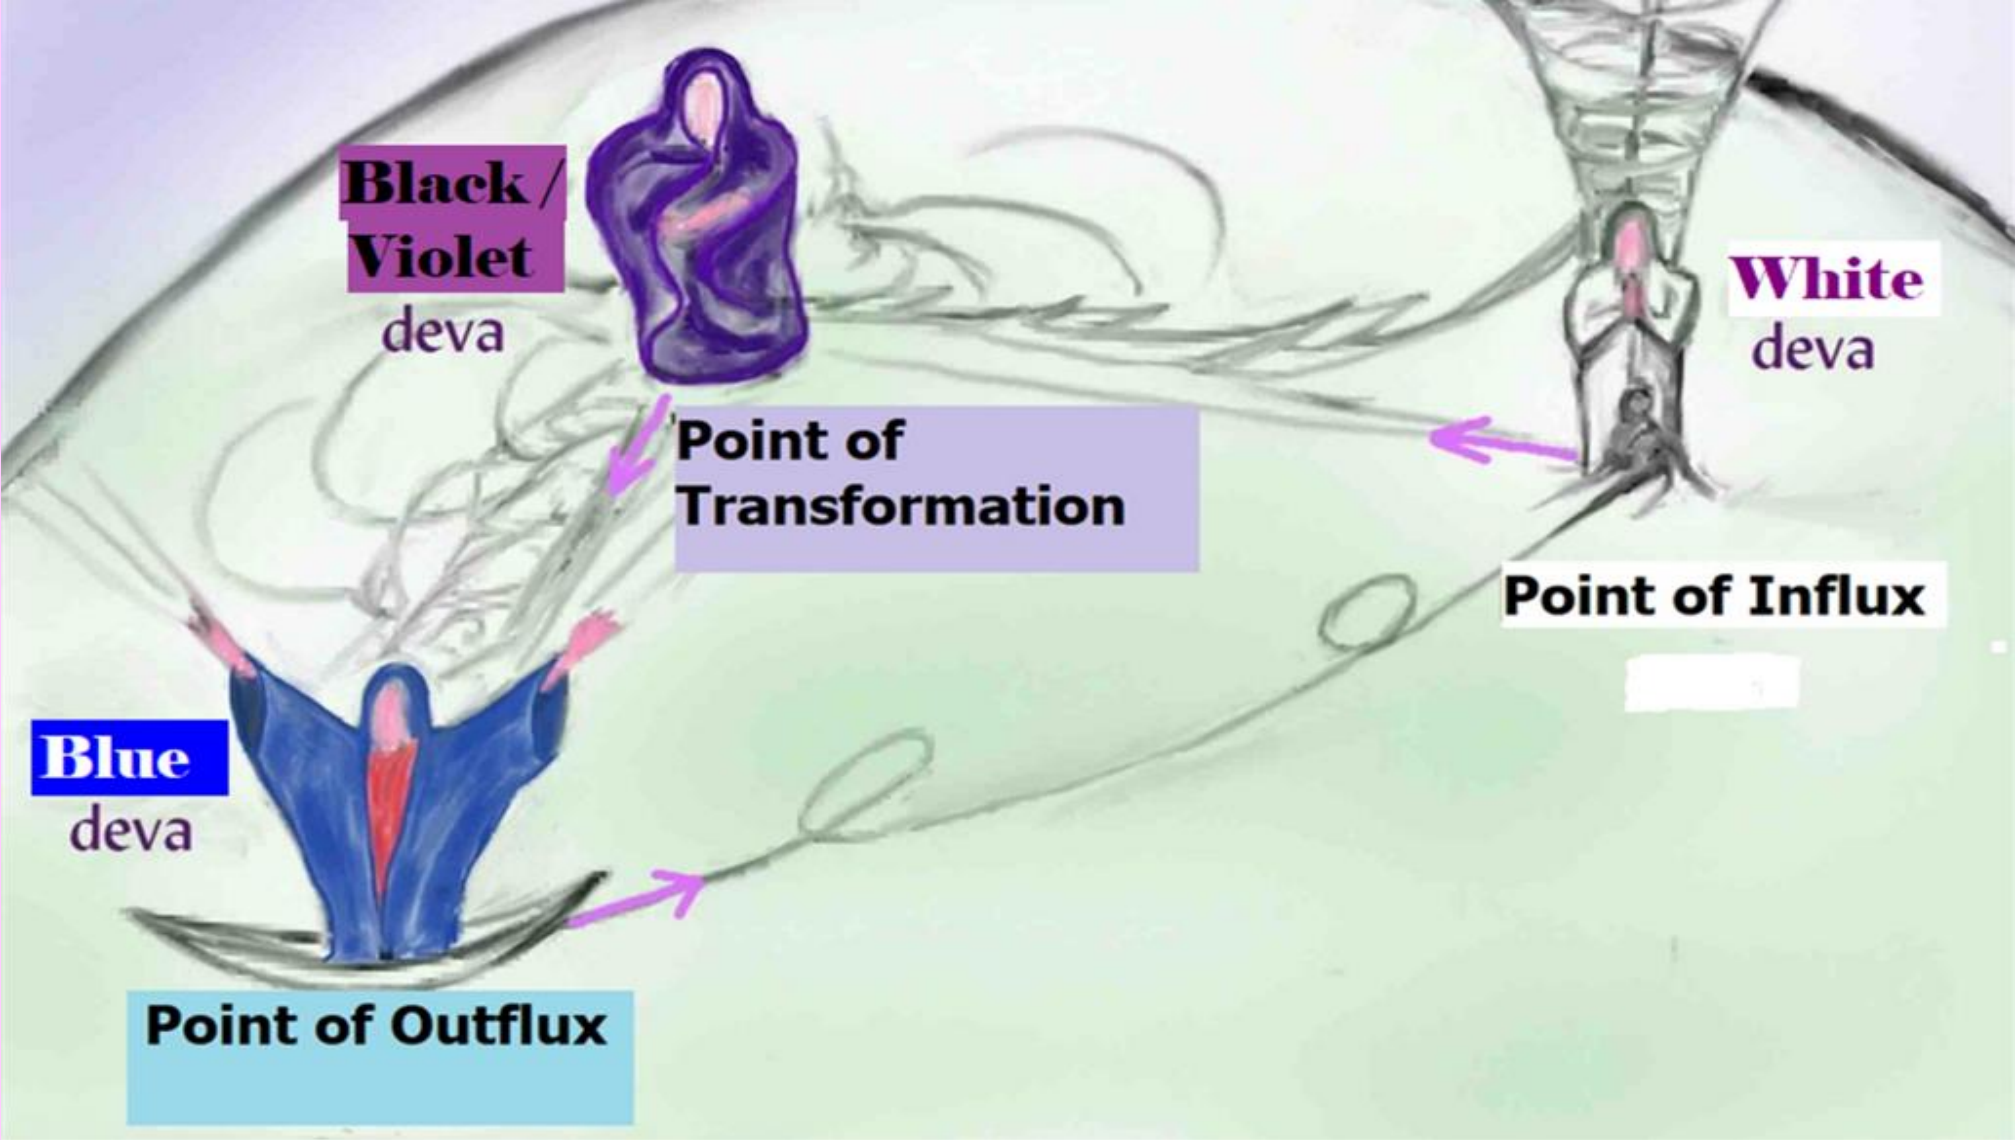

Regarding the Cosmic Power Points with a Basic 3-fold Structure:

- Each of the 3 Spots has a Distinct & Specific Vortex,
- Are operated by “Angels of Mother Earth”, or “Deva’s”,
- The Whole is like a "Temple of the Deva" and its physical area is like “her Earthly Body”,
- The Temple of the Deva also has 7 Organ Places in it that are also in her landscape,
- All Deva’s are led by **The Supreme Deva of the Earth.**

These Temples of the Deva are structured in equilateral triangles, like the Bermuda Triangle shows.

The Cosmic Power Point Temple of a Deva looks like this:

These 3-Fold Cosmic Power Points are spread all over the Earth.

It's like a huge spiritual network of Temples. From tiny ones to huge ones crossing oceans.

They are the vehicles for the Earth and Humanity to receive its Spiritual Powers, Qualities and Impulses each day, and to process those.

The Deva's have a consciousness akin to us humans, only are they then of an angelic nature.

Each of the three power points requires the Deva to carry out different kind of work.

As the Deva does her work at one of the three points, her activity changes her appearance in colors.

Thus, the **Distinct Different Vortex at each spot reflects that work.**

The Point of Influx – this is the spot where it starts at, wherein the Cosmic- Spiritual Flux comes in, is received and assessed.

The Point of Transformation – at this spot the work is focused on digesting it into the earth and its astral-etheric worlds.

The Point of Outflux enables what was dealt with and digested to flow out back into the cosmos. What didn't get digested and processed will need to re-enter into the cycle.

Within her 3-Fold Temple the Deva is helped by various nature spirits who each work in a specific realm:

- Earth - Gnomes help to densify into Form
- Water - Nymphs help with the flow of Life-forces
- Air/Light - Sylphs bring in Soul-qualities via Colors
- Fire - Salamanders help with bringing in Warmth.

There are other Nature Spirits involved too.

When a Temple operates properly the nature spirits all work for Christ.

To get a better idea of how the 3 Different Vortex Spots operate is shown by an Analogy and Correspondence with how our Digestion works.

The 3-Foldedness is as follows:

Influx: Food comes in via your mouth, you assess what it is, and the first digestion kicks in.

Transformation: In the stomach a next level of digestion occurs.

Outflux: In the intestines the last part of the digestion takes place; what the body needs and is good for it is put in the bloodstream, and what it doesn't, goes into the excretion.

Behind all of this stands the 9 Hierarchies of Angels who are connected to those Realms in Nature as follows:

Hierarchy	Also Known as	Connection to Nature Spirits
9. Seraphim	Spirits of Divine Love	Neptune
8. Cherubim	Spirits of Harmony	Supreme Deva of the Earth
7. Thrones	Spirits of Will	Pan – Earth God
6. Kyriotetes	Spirits of Wisdom / Dominations	Muses, Fire-Salamanders
5. Dynamis	Spirits of Motion / Virtues	Masters of Minerals, Nymphs
4. Elohim	Exusiai/ Powers	Light Orb Beings
3. Archai	Spirits of Personality / Principalities	Tree-Beings, Fairy's, Elves, Sylphs
2. Archangels	Group-Leaders / Sons of Fire	Tree-Beings, Undines
1. Angels	People's Personal Guardians	Muses, Gnomes

The opposing Fallen Angels and their fallen demonic spirits dwell in the 9 Subterranean Spheres. They are (including a categorization of characters from Lord of the Rings):

Hierarchy	Main connection	Occurs as	In LOTR
1. Fallen Angels	Lucifer	Small greys, "Galatics"	Orcs
2. Fallen Archangels	Satan-Ahriman	Archons, Fake aliens, Tall greys	Uruk-hai
3. Fallen Archai	Sorat/Anti-Christ	Asura's, Reptilians	Shelob
4. Fallen Elohim	Lucifer	False Heaven on Earth	Nazgul
5. Fallen Dynamis	Satan-Ahriman	Abuse of Lifeforces in Machines	Trol-King
6. Fallen Kyriotetes	Sorat/Anti-Christ	False Ideologies and Religions	Balrog
7. Lucifer-Devil	From 7 to 4 and 1		Sauron
8. Satan-Ahriman	From 8 to 5 and 2		Saruman
9. Sorat/Anti-Christ	From 9 to 6 and 3		Melkor

Since it's Humanity's mission to transform and sublimate the earth into The New Jerusalem, there are also realms within the Subterranean that are in the process of becoming like that. So, it's not entirely a Black & White thing down there.

The surface of our planet is the stage where all these beings and forces are at play.

So, when doing Cleansing and Healing of Energetics at a place you'll have to deal with the adversary beings of those 9 realms and the Black Magic that are present there.
